

## Performed-Done

---

I. Take a look at the data below. Do you see any differences between *done* and *performed*?

Total No. of Cluster Types: 139

Total No. of Cluster Types: 100

Total No. of Cluster Words: 742

Total No. of Cluster Words: 370

1     123     work done

1     61     is performed

2     99     done by

2     44     be performed

3     82     is done

3     33     performed on

4     63     be done

4     26     performed by

5     57     done on

5     25     are performed

6     33     done in

6     22     performed in

7     23     are done

7     14     performed at

8     16     done so

8     10     performed to

9     14     done with

9     7     performed using

10    11     already done

10    6     work performed

11    10     been done

11    5     being performed

12    10     done for

12    5     performed, the

13    10     done to

13    4     operations performed

Black = rank; Red = number of times

What do we call verb forms such as *is performed, is done, are done, and are performed*?

## Performed-Done
